workshop«**

»Your one and only Partner«

We offer you high-quality sub-contracting services such as;

- In-house machining; e.g. turning-lathe; milling and grinding
- Sparkling, quenching
- Sheet metal fabrication; e.g. laser cutting; punching, cutting and bending
- Advanced welding of steel, stainless steel and aluminium
- Our welding workshop is certified according to ISO 3834-2 and EN 15085-2
- Sand blasting & painting
- Assembly
- Quality control & measuring
- Design
- PLC-programming
- We do have large & suitable premises, approx 9.500 sqm, situated in Tidaholm.

We are able to assist you with designing and manufacturing of advanced prototypes & tools & fixtures.

Based on our broad experience, our in-house manufacturing ability and together with our long-term supplier network we can be your one and only partner...
